Clôture bois
PARANA®

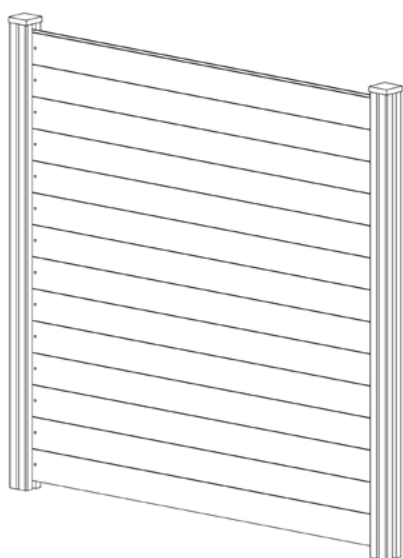

Notice de montage

Parana® est un concept de clôtures en bois modulable qui permet de réaliser des palissades de hauteurs variables et de différents designs. Les bois proviennent de Scandinavie et sont traités en autoclave conformément à la norme EN 335, dans une station certifiée CTB pour une garantie de 10 ans.

Niveau à bulle	Clé plate de 10	Visseuse et pointes associées	Béton sec et gravier

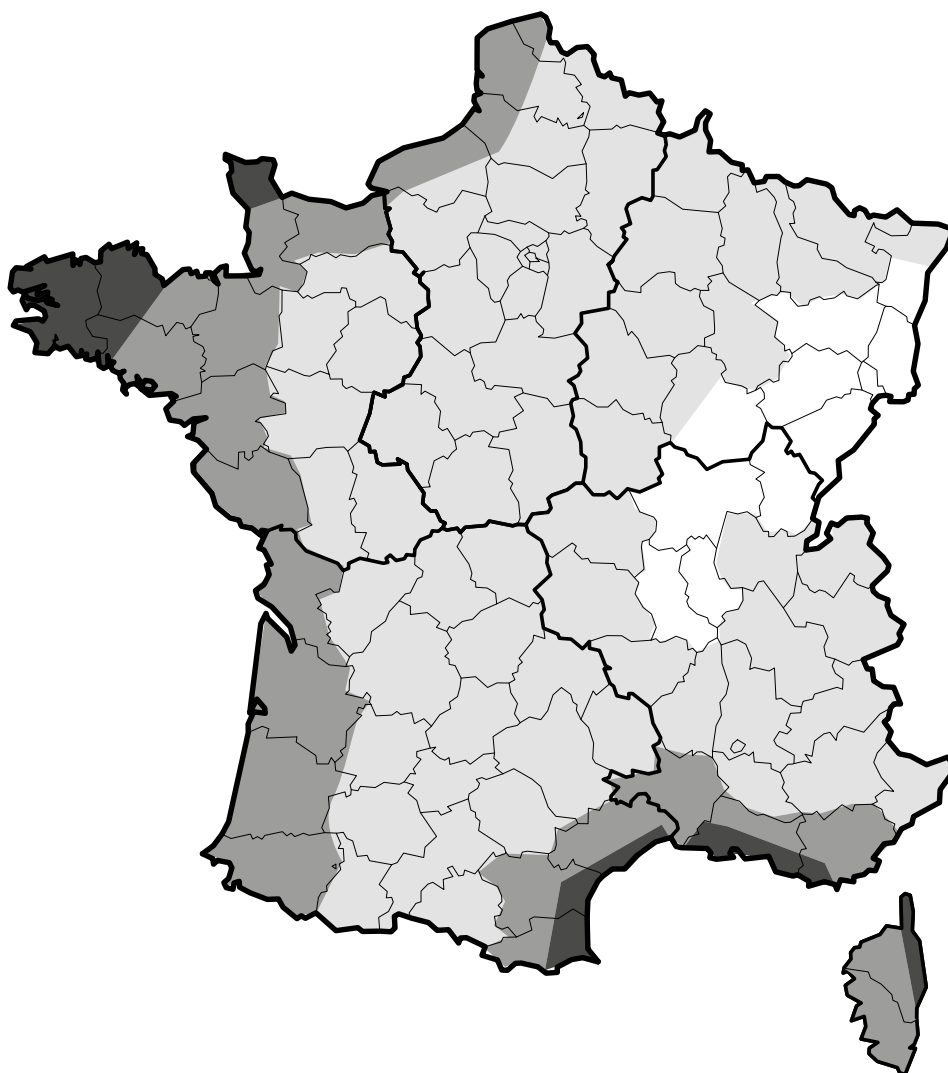

4 - Précautions

Réglementation

Se renseigner auprès de la municipalité de votre commune pour connaître les réglementations en vigueur et le code de l'urbanisme, par exemple la distance minimale requise avec la voirie, la hauteur maximale de la clôture, la nécessité d'une déclaration de travaux ou d'un permis de construire.

Climat

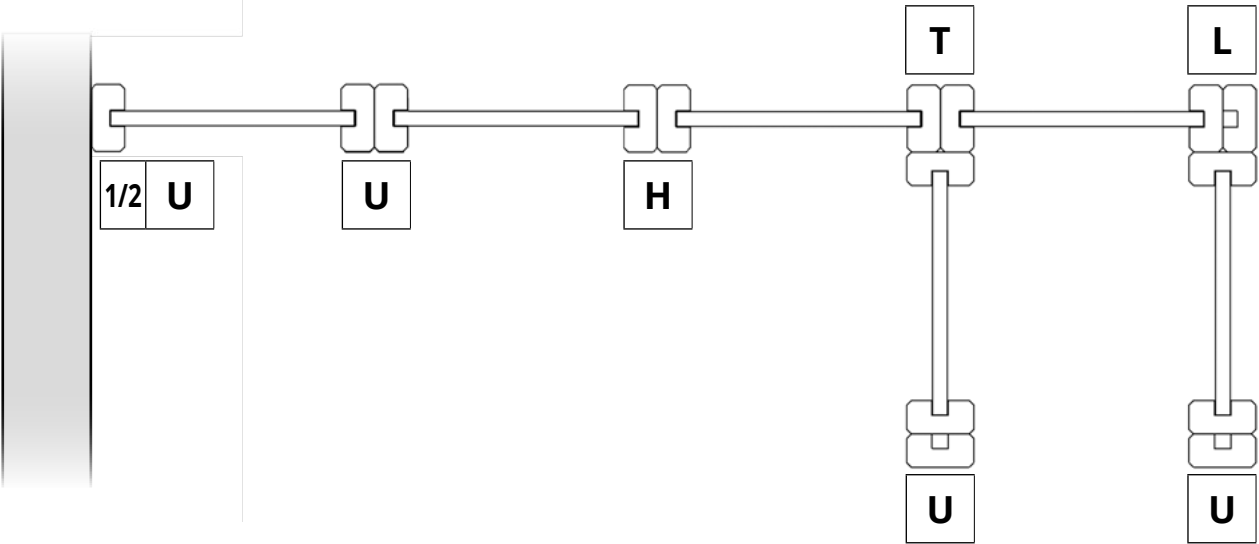

Nos palissades sont conçues pour respecter la règle NV65 du DTU intitulé "Actions climatiques neige et vent". (Cf carte des vents) et supporter des vents de vitesse 120 km/h maximum (Zones 1 et 2)

	ZONE 1
	ZONE 2
	ZONE 3
	ZONE 4

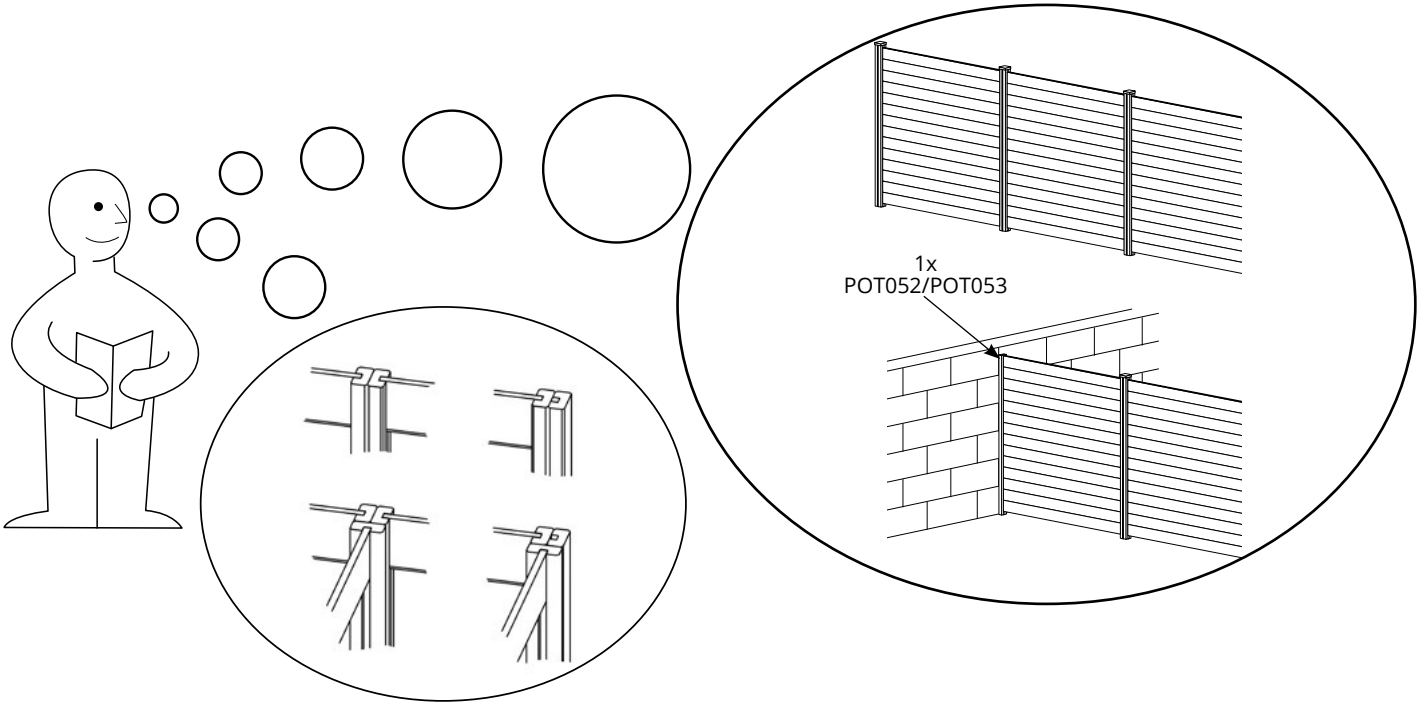

ZONE	VITESSE NOMINALE VENT	PRESSIION DYNAMIQUE
ZONE 1	100 Km/H	51,5 Kg/dm ²
ZONE 2	110 Km/H	60,0 Kg/dm ²
ZONE 3	120 Km/H	75,0 Kg/dm ²
ZONE 4	140 Km/H	91,5 Kg/dm ²

5 - Assemblage des poteaux

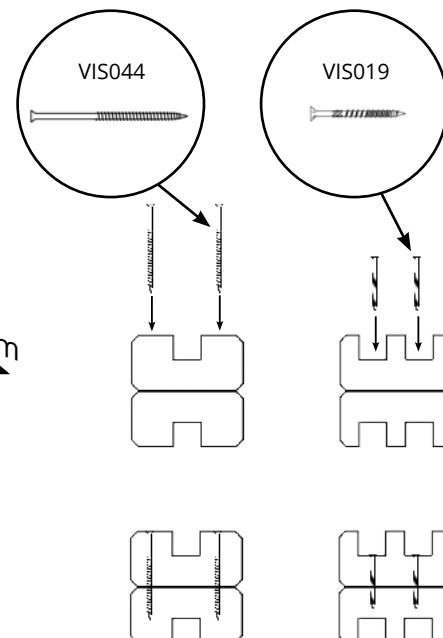

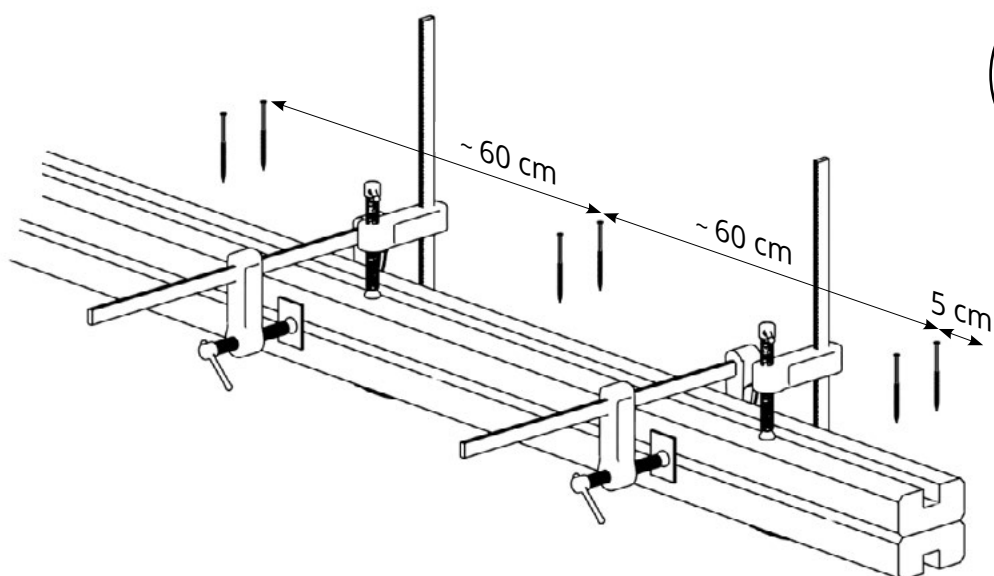

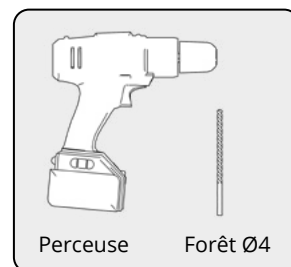

Composants

	POT052	Demi poteau PARANA 45x90x2380 mm - simple rainure	U/H : 2 par poteau L/T : 3 par poteau
	POT053	Demi poteau PARANA 45x90x2380 mm - double rainure	
	VIS044	Vis Inox A2 pour bois 6x70 mm (100 pcs)	Pour POT052 : U/H ~ 10 vis par poteau L/T ~ 15 vis par poteau
	VIS019	Vis inox terrasse - 5x50 mm (200 pcs)	Pour POT053 : U/H ~ 10 vis par poteau L/T ~ 15 vis par poteau
